

Mettler-Toledo Industrial Scale Base

- Capacity: 120lb/60kg x 0.002/1g
- Platform size: 20" x 16"
- Stainless Steel Top
- Epoxy coated base
- NEMA 4 construction
- **Software adaptations**
The individual possibilities to adjust weighing process-, vibration- and standstill adapter adapt the weighing system to the environmental conditions at the place of use.
- **Update rate of 20 ups**
Highest efficiency for dispensing and filling
- **Internal test- / adjusting weight**
During installation, the existing gravitations at different places on earth are considered.

Specifications

Maximum Capacity	60 kg
Readability	1 g
Size	500 x 400 mm :
Height	123 - 148 mm
Scale material	Powder-coated
Load plate material	Stainless steel
Degree of protection	IP66/67
